*The Ethical and Scientific Importance of Clinical Trial Registration and Results Reporting*

---

Deborah A. Zarin, M.D. is the Director of ClinicalTrials.gov at the National Library of Medicine. ClinicalTrials.gov is a registry and results database of publicly and privately supported clinical studies of human participants conducted around the world. Dr. Zarin oversees the development and operation of the international registry and results reporting system for clinical trials, and the corresponding implementation of legal and other trial reporting policies.

Dr. Zarin’s recent research has been on the quality of trial reporting, as well as issues in the design and analysis of clinical trials.
